

Jesus Hernandez
Chicago, IL | 312-998-5069 | jesushernandez976@yahoo.com |

I am a Software Developer, with a bachelor's degree in computer science with a concentration in Programming & Software Development. In addition to my technical skillset, I have experience in roles outside the tech field, as a talent recruiter and Accounts Payable Specialist/Accounting.

EDUCATION

Purdue University Global **2021-2024**
Bachelor of Science, Information Technology – Programming & Software Development
Awards & Honors: Chancellor's List
Graduated with a 3.98 GPA

TECHNICAL SKILLS

Software/Languages: HTML 5, CSS, JavaScript, Bootstrap, Tailwind CSS, Three.js, Adobe Suite; Microsoft 365 including Microsoft Access; Visio Database SQL, Git, GitHub, Visual Studio Code, Brackets, Figma, GP (Great Planes), Avionte Bold and Classic

PROJECTS

Nucamp: Front-End Web Development Bootcamp

- In these 3 months, I acquired skills to create websites and code from scratch using HTML5, CSS and JavaScript. Learned coding and proper syntax while building mock webpages. The purpose was to get familiar with working with clients and special requests on websites and certain layouts. I received a Front-End certification through this boot camp course.

Access Code Programming: Front-End Projects

- Created and rendered realistic 3D models and environments, applying advanced techniques such as texture mapping, dynamic lighting, and real-time shadows to elevate the user experience and bring digital concepts to life.
- Collaborated with numerous clients to design and develop immersive, interactive 3D front-end web experiences using Three.js, delivering visually compelling and highly engaging applications directly in the browser.

PGIP Tech internship: Front-End internship

- Completed a 3-month front-end development internship, gaining hands-on experience in writing clean, efficient code while collaborating in a team environment. Developed a front-end website specifically for new PGIP interns, providing onboarding resources and guidance to help them understand expectations and procedures.
- In this internship I worked and developed a Front-End website for the PGIP new Interns to look at and get familiar with what is expected of them. I learned to create a test, submittal forms and like all this to a Database/backend.

WORK HISTORY

Front-End Software Dev | Access Code Programming – Chicago, IL **03/2024 – 04/2025**

- Created and managed websites, delivering custom websites and applications for a diverse range of clients, with a strong focus on performance, accessibility, and user experience.
- Designed and developed modern, responsive websites and web applications using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and seamless user experiences across all devices.
- Engineered interactive and dynamic UI components with JavaScript to improve user engagement, increase session duration, and support real-time interactivity.
- Collaborated with cross-functional teams, including designers and backend developers, to deliver high-quality products on tight deadlines.

Accounts Payable Specialist | Sure Staff – Itasca, IL **05/2023 - 04/2025**

- Processed accounts payable and receivable transactions, ensuring timely payments and accurate records.
- Reconciled vendor statements to ensure all outstanding invoices were identified and resolved promptly.
- Prepared and processed weekly, bi-weekly, and monthly payments through various methods, including checks, ACH, and wire transfers.
- Put a stop payment on checks or ACH payments when they are needed. Submitted the positive pay that is needed to prevent fraud each time a check was printed.
- Oversaw the billing process by preparing and issuing invoices to clients in accordance with agreed-upon terms.
- Researched and resolved discrepancies or disputes related to client billing and payments.
